PC

<https://map.pref.chiba.lg.jp/pref-chiba/Portal>

## d button

Weather forecast, warnings/advisories, evacuation information, availability of evacuation centers, etc.

Click the button on the remote controller of your digital television. You can use it for all digital terrestrial broadcasting stations.

"d button" is a button on the remote controller of a digital television for digital terrestrial and other broadcasting. It is used for data broadcasting to distribute various information such as the information linked to the TV program being aired, weather forecasts, and traffic information.

## Katsuura mate

The same information, including disaster prevention/fire information and administrative information, as provided through the city's administrative radio system is provided as a message via an application.
